## about east one coffee

Since 2017, East One has been crafting our resonant, dimensional, full spectrum coffee in our roastery located right here in The Eatery. We roast, conduct quality control, and package orders here—the coffee we serve was roasted just steps from your table.

We are proud to showcase our roasting process that has resulted in the cup you are drinking, as well as our production where we prepare orders for our partners at quality-forward cafes, bakeries, restaurants, and natural grocers nationwide.

We hope you get a chance to take a peak at our operation during your visit and check out our selections of whole bean coffee for home brewing available next door in the cafe.
